

Conquering Satan's world just as Jesus did. How can we do that? Part 5

CSB (John 16:33) 33 I have told you these things so that in Me you may have peace. You will have suffering in this world. Be courageous! *I have conquered the (Satan's) world.*"

All the deception and games that happen in businesses on a small scale, status wealth and power, are coming back at large scale in world affairs.

In the previous article we discussed the red symphony, neo-communism, the UN, agenda 21, the think-tank's and the way to chaos which is consciously caused.

The theme of this article is; Sowing of fear and deception, the UN and the climate, the Frankfurter Schule, Migration, the rich of the earth get a privilege, but Jews get dominance.

Sowing fear and deception

Children of Satan have no control over themselves and have no limits in what they are doing. And when researchers investigate and expose their (occult) way of life, the results are labeled by the governments and by (their) MSM as 'conspiracy theories'.

The Russian scientist [Alexander Zinoviev](#) was asked a question about a world government: *Doesn't that mean to be a victim of delusional fantasies about global conspiracy?*

The answer from Zinoviev was very clear:

What conspiracy? There is no conspiracy. The world government is controlled by the heads of well-known supranational economic, financial and political structures.

It is not only the influence of Judaism that determines world affairs. The common Jewish people do not know what is going on, but they do know that Judaism forms a collective. Since 1970, the royal houses, aristocracy and a number of managers of banks and multinationals have organized themselves via the [1001 club](#) with a duty of confidentiality. This club was a continuation of the establishment of the World Wildlife Fund (WWF) in 1961, which has done good work in the past in protecting endangered species. The members from all parts of the world of the [1001 club](#) all have great financial interests, just like the elite members of the Anglo-American [Pilgrims Society](#) with members from England and the US.

There is also a large overlap of members between the two clubs, the same bankers and super rich. Dutch lawyer Wilgers investigated [de 1001 club en WWF](#):

"The WWF is guilty of deceiving the public by exaggerating the illegal trade in endangered species.....It's complete disinformation."

The nobility and royal houses never did anything else then exploiting the population, expanding their possessions and claiming hunting grounds. On certain occasions they allow themselves to be glorified by the population (with the help of the MSM) and show off their wealth:

NKJV (1 John 2: 15-17) 15 Do not love the world or the things in the world. If anyone loves the world, the love of the Father is not in him. 16 For all that is in the world--the lust of the flesh, the lust of the eyes, and the pride of life--is not of the Father but is of the world. 17 And the world is passing away, and the lust of it; but he who does the will of God abides forever.

They certainly do not want to give up their status and activities for a larger world population. The aim of these secret clubs is therefore to further expand their wealth, power and luxury, to improve their living environment only for themselves and they do not care about the population. The current climate problem has been made-up as a source of income for the rich of the earth, with spending the unprecedented amounts of expense for the climate to get the economy going.

The method of these rich is always simple, where large profits can be achieved, there they can be found:

CBS (Matthew 24:28) 28 Wherever the carcass is, there the vultures will gather.

While bird lovers make big efforts to observe birds as a woodcock and enjoy, the rich enjoy shooting these as a trophy. Like tigers and other wild.

Woodcock [Wikipedia](#)

A number of clubs such as 'the Club of Rome' and 'Earth Council Alliance' are funded by the super-rich with that special climate goal. With so-called 'scientific' climate dogmas. And for that purpose too, a new generation of young activists from the 'green' environment has been prepared by NGOs, such as 'Extinction Rebellion' and 'Animal Liberation Front'. The royal houses, nobility and the rich can steer these Eco-campaigns perfect by their network via the MSM. As for Christians, they have already chosen the only veritable King:

NKJV (Acts 17: 6-7) 6 But when they did not find them, they dragged Jason and some brethren to the rulers of the city, crying out, "These who have turned the world upside down have come here too. 7 Jason has harbored them, and these are all acting contrary to the decrees of Caesar, saying there is another king--Jesus.

The MSM has become a propaganda instrument which is used for NWO interests and which gives a misrepresentation of matters for political support, towards a neo-communist direction. Which, through subsidies and advertising income, assist politically correct in the programs. All liberties are taken away one by one, even taking innocent photos at schools is not allowed. But all observation and surveillance cameras with face recognition are no problem. The simplest comment is already an insult, or generates the magic word 'discrimination'. Social networks are censoring with their network police. Domestic security services are being misused for the control of benevolent citizens. Mobile telephony services scan all calls as standard for target words.

A new society of fear, deception, greed and chaos arises because our children no longer even know what reality is. Even of people under 50, most of them no longer know the reality because all the news is colored via the MSM, full of deception.

UN and Climate

The atmosphere consists of +/- 78% nitrogen, +/- 21% oxygen and +/- 1% out of others, including noble gases and +/- 0.04% CO₂. That was +/- 0.032% 50 years ago.

In the past there have been times when there was considerably more CO₂ in the atmosphere. Of this 0.04%, all standard animal-, human- and plant- life on earth together with the emission of the oceans produces +/- 96% of the CO₂.

Of this 0.04%, humanity causes *extra* 4% or 0.0016%. This 0.0016% CO₂ from the atmosphere, that's what the entire EU-UN story is about.

George Soros paid Al Gore (An Inconvenient Truth) millions to push an 'Aggressive US action' on Global Warming. There are already people who are scared to light a candle. That would be bad for the climate. While the same policymakers for each meeting are flying massive around the globe with private jets.

In a scientific study, published in Nature Climate Change, NASA declares that rising carbon dioxide (CO₂) has had a tremendously positive impact on the greening of the earth over the last three decades, with some places over a 50% increase in plant life.

The study, entitled 'Greening of the Earth and its drivers', used satellite data to monitor and map the expansion of green plant growth over the earth from 1982 - 2015.

IPCC

The Intergovernmental Panel on Climate Change (IPCC) produces publications on knowledge about climate change for the United Nations.

The IPCC does not conduct the investigations itself, but writes the reports based on the most recent submitted scientific investigations. The IPCC draws conclusions from these.

[NASA study: mass increase in Antarctic ice sheet greater than the losses](#)

Short video about the climate of Professor Richard Lindzen: <https://youtu.be/OwqIy8IkV-c>

With its CO₂, the climate has really become a religion. In the meantime we are confronted with nitrogen emissions (N₂), of which the percentage of the earth's atmosphere is almost 80%. The EU is talking about nitrogen compounds (NO_x), which are descending in the ground and are souring the soil. [NO_x emissions have been halved since the 1990s](#) and this trend is likely to continue. The emissions therefore decrease spectacularly.

Volcanic eruptions above and below water, methane gas above and below water, natural fires of grasses and forests. This appears to be no problem at all. Our creator has made the earth perfect to absorb, also the climate is perfect.

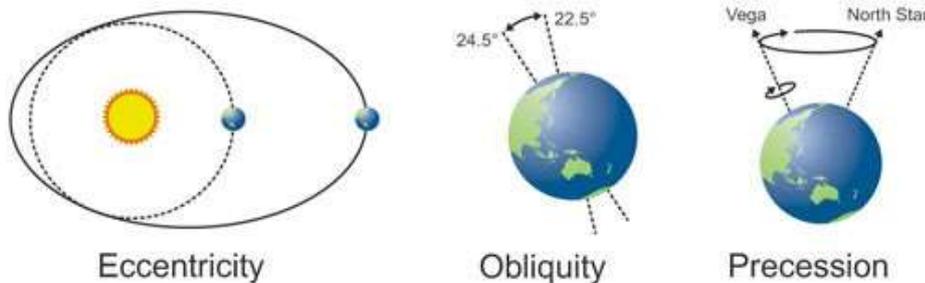

Milankovitch Cycles; Named after the Serbian geophysicist and astronomer Milutin Milanković

Exentricity: The Earth's orbit varies from almost circular to slightly elliptical (the exentricity varies). When the orbit is longer, there is more variation in the distance between the earth and the sun and in the amount of solar radiation received, at different times of the year.

Obliquity: Change of the rotation of the earth (the tilt). A larger tilt makes the seasons more extreme.

Precession: Axial change in the direction of the fixed stars Vega and Polaris pointed to by the axis of the earth (axial precession), while the elliptical orbit of the earth rotates around the sun.

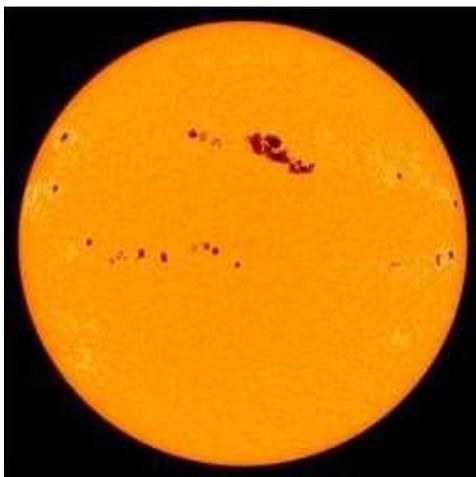

Milankovitch Cycles

Approximately every 100,000 years, this brings a glacial period, an ice age. And warm periods.

[In the period between 130,000 and 115,000 years ago, the climate on earth was warmer than now.](#)

The intensity of the sun (the sun spots) also varies periodically. When there is a sunspot, hot matter from the sun is swung out. More radiation is released rather than normal and on the earth, radiation from the sun is also slightly higher. Many sunspots means more activity and give a higher temperature on earth. The data paint a remarkable picture: every cold period on earth was accompanied by few sunspots, indicating a weakened magnetic field of the sun and a high production of beryllium-10 and radioactive carbon, indicating a fierce intensity of cosmic radiation.

[Wikimedia Commons](#)

[Arguments and facts about global warming :](#)

- + There are 8 well-documented ice ages with temperature variations of 3-8 ° C.
- + Ice cores and seabed samples contain "[Dansgaard-Oeschger oscillations](#) " of 2-16 ° C (in periods of 10-100 years)
- + [Around 1100 AD: heating/cooling of 1° C](#), the same size and speed as now.
- + [Around 1600: Little Ice Age](#) : afterwards heating of more than 1° C

The above has nothing to do with extra human CO2 emissions.

Short explanatory video from Tony Heller of Realclimatescience: [My Gift To Climate Alarmists](#)

Different measurement methods for measuring the climate contain various uncertainties. But the derived climate computer models are expected to work flawlessly.

"Climate models are unreliable and forecasts of global warming are absurd," said German professor Fritz Vahrenholt in the online Hamburg Abendblatt. Vahrenholt told Abendblatt that the climate debate has become hysterical and that we certainly have 'no climate emergency'.

[Communism according to the United Nations best suited to stop the greenhouse effect](#)

From 2010 to 2016, Christiana Figueres was Secretary General of the Secretariat of the United Nations Climate Framework Convention (UNFCCC). She made no secret that she thought capitalism and democracy are responsible for climate protection difficulties. Political systems such as the communist system in China would be better suited.

So many lies are being poured into the world by the children of Satan that the contradictions will only increase exponentially. This manipulating of people is called 'social engineering'. This Jesus says about our time of disunity and of Christians who remain faithful:

NKJV (Matthew 10:34) 34 "Do not think that I came to bring peace on earth. I did not come to bring peace but a sword.

Research by Finnish scientists J. Kauppinen and P. Malmi

"No experimental evidence for the significant anthropogenic climate change"

(anthropogenic = man-made)

The paper explains that IPCC analysis of global temperatures suffers from a glaring error — namely, failure to account for 'influences of low cloud cover'. Natural variations in low cloud cover, which are strongly influenced by cosmic radiation's ability to penetrate Earth's atmosphere due to variations in the strength of our planet's magnetosphere, account for nearly all changes in global temperature, the researchers explain.

Human influence is almost zero. (No more than 0.01 ° C rise in temperature)

As the chart below reveals, more cloud cover is inversely related to temperature. In other words, higher temperatures give water vapor so more clouds.

Clouds shield the surface of the Earth from the sun, providing shade cover:

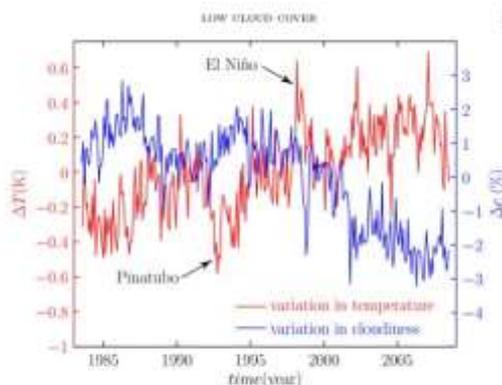

FIGURE 2. [2] Global temperature anomaly (red) and the global low cloud cover changes (blue) according to the observations. The anomalies are between summer 1983 and summer 2006. The time resolution of the data is one month, but the seasonal signal is removed. Zero corresponds about 15°C for the temperature and 26 % for the low cloud cover.

According to a number of scientists there is absolutely no climate emergency, as the EU now puts forth: [Real scientists declare: There is no climate emergency](#)

It is just an opinion of the EU that can certainly not be substantiated.

The EU must be climate neutral by 2050, which means that the remaining greenhouse gas emissions must be compensated.

And the EU wants to spend €575 billion every year to become 'climate neutral'.

The idea is that the world will stop completely with fossil fuels and CO2 emissions. Since this is totally impossible, such a huge shock can only be realized in one way by letting the world economy crash which is already going through a severe crisis.

It is a distraction for the really important topics, such as the pollution of the environment:

John O'Brennan (director of CIA until 2017)

He talks about applying 'geo-engineering' in 2016. (chemtrails)

Nowadays they call the program 'Stratosphere-Aerosol-Injections'.

Our Creator, however, has delivered perfect work and we do not have to worry about the wonderfully designed climate:

***NKJV** (Job 38: 1-) 1 Then the Lord answered Job out of the whirlwind, and said:.... 4 "Where were you when I laid the foundations of the earth? Tell Me, if you have understanding. 5 Who determined its measurements? Surely you know! Or who stretched the line upon it? 6 To what were its foundations fastened? Or who laid its cornerstone, 8 "Or who shut in the sea with doors, When it burst forth and issued from the womb; 9 When I made the clouds its garment, And thick darkness its swaddling band; 10 When I fixed My limit for it, And set bars and doors; 11 When I said, 'This far you may come, but no farther, And here your proud waves must stop!'.... 16 "Have you entered the springs of the sea? Or have you walked in search of the depths?.... 22 "Have you entered the treasury of snow, Or have you seen the treasury of hail.... 28 Has the rain a father? Or who has begotten the drops of dew? 29 From whose womb comes the ice? And the frost of heaven, who gives it birth? 30 The waters harden like stone, And the surface of the deep is frozen.*

***NKJV** (Job 41: 3-4) 3 Then Job answered the Lord and said: 4 "Behold, I am vile; What shall I answer You? I lay my hand over my mouth..*

But Christians are indignant about the destruction of our environment by greedy children of Satan. Creation has been seriously damaged by genetically modified crops, by carcinogenic weed killers such as glyphosate, contaminating toxic heavy metals, dumping of oil and chemical waste, radioactive waste and fall-out, etc.

On the new earth, that behavior will never again be allowed by our King Jesus:

CSB (Revelation 11:18) 18... and the time has come to destroy those who destroy the earth.

Unnecessary animal die-offs are an abomination to Christians: [Alaska cod populations are plummeting and Australian beaches are littered with dead seabirds](#)

The Frankfurter Schule

An old saying is: Whoever has the youth has the future!

Today's young people are called the descendants of the '68 generation. Much of the ideas of the socialist movements came from the mindset of the Frankfurter Schule with their slogan 'Make love not war'.

In the first half of the 20th century 'The Frankfurter Schule' was created, a German sociological and philosophical movement that dealt with society critical, neo-Marxist, critical theory. It concerns sciences such as sociology, psychology and philosophy. Sociology is the study of social relationships between people.

When Hitler came to power, they (it was a Jewish institution) had to flee from Germany and eventually ended up in the US and supported the study of sociology at Columbia University in New York.

From there, their field of activity spread over many US universities and over the universities of the Western world.

Critical theory can be seen as a continuation of Marxism by criticizing everything as 'alleged' oppression, discrimination or exploitation.

One of the most important ideas of the Frankfurt School was to teach Sigmund Freud's idea of 'pan-sexualism' - overthrowing traditional relationships between men and women. Pan-sexuality or omni-sexuality is open to all types of sexuality towards persons of all gender identities and biological sexes: heterosexuality, homosexuality, bisexuality, transsexuality, and transgenderism.

According to the work of Wilhelm Reich (of the Frankfurter Schule), psychological problems mainly stem from sexual oppression and - according to him - sexual liberation can cure many people.

From 1960 the sexual revolution came into being as an answer, to stand up against the Christian monogamous way of life and to free oneself from sexual oppression.

In the footsteps of the Frankfurter Schule came the flower power period, the massive sex orgies, the communes, the hippies and the cohabitation.

NKJV (Matthew 19: 5-6) 5.....'For this reason a man shall leave his father and mother and be joined to his wife, and the two shall become one flesh'? 6 So then, they are no longer two but one flesh. Therefore what God has joined together, let not man separate.

[How school districts weaponize child protection services against non-cooperating parents.](#)

The demonic attack on our Christian youth takes place through gender neutral education with role play. Worried parents are sidelined by schools.

Parents are increasingly obliged to obey, to meet the requirements of a school, even if they believe that such requirements may not be suitable for their child.

Young women are misled with feminism and loose sexual morality instead of motherhood.

The Tavistock Institute

The clinic was founded in 1920 by the psychiatrist Hugh Crichton-Miller, who was influenced by Sigmund Freud. Sigmund Freud was a neurologist from Austria-Hungary and the founder of psychoanalysis. He was of Jewish descent.

The organization had a profound effect on the moral, intellectual, cultural, and political

policies of the US and England. The clinic was continued from 1947 as an independent institute.

This institute officially describes itself as an 'organization of dynamic psychiatry'.

But behind the scenes it's all about global 'mind control'.

The institute is linked by researchers to the global '[color revolutions](#)'.

Promoting polarization or opposition between proponents and opponents.

If you want to change a well-functioning (Western) society into a communism-based society, as first you must initiate processes that cause increasing chaos. Not necessarily in the economic field, but especially in the field of opinion formation. Create groups which are in favor and create groups which are opponent.

It is the proven Latin adage; **Divide et impera** - Divide and rule:

NKJV (Matthew 12:25) 25 But Jesus knew their thoughts, and said to them: "Every kingdom divided against itself is brought to desolation, and every city or house divided against itself will not stand.

Migration

The Austrian Count Richard Coudenhove-Kalergi

The book "Praktischer Idealismus" written by Richard Coudenhove-Kalergi in 1925 describes his views on how he believed in the destruction of the right to self-determination and the elimination of European nations through the formation of a European community:

"The future person will be of mixed race. Contemporary races and classes will gradually disappear due to space, time and the disappearance of prejudices. The Eurasian-Negroid breed of the future that will resemble the ancient Egyptians, replaces the uniformity of peoples with a similarity to descendants. "(Page 22, 23).

And about the Jewish bankers he wrote:

'No wonder, then, that this (Jewish) people, from the ghetto dungeon, are developing into a spiritual nobility in Europe. So the moment the feudal nobility fell into disrepair, benevolent providence gave Europe a new noble race of grace through the emancipation of the Jews.'

Coudenhove-Kalergi was a Freemason (member of the Viennese Masonic Lodge 'Humanitas') and president of the 'Pan-European Union' founded in 1922 and funded by Jewish banker Max Warburg. People like Albert Einstein, Konrad Adenauer, Franz Josef Strauß and Otto von Habsburg joined this. In an Austrian Masonic edition of 'The beacon' from 1925 it read:

'Freemasonry, in particular the Austrian Freemasonry, can be very satisfied to count Count Coudenhove-Kalergi among its members. The Austrian Freemasonry can report that Brother Coudenhove-Kalergi is fighting for his pan-European beliefs. Brother Kalergi's program is a Masonic work of the highest order, and working together on it is an exalted task for all of us. "

Rabbi Dr. Isaac Wise stated in the magazine 'Israelite of America' on Aug. 3, 1866:

'Freemasonry is a Jewish institution. Their history, their degrees, their attitude and their statements are Jewish from start to finish.'

On May 14, 1947, Churchill spoke in London about the Anglo-American goals with Europe: *'But let's not fool ourselves about the main goal: without a united Europe, there is no sure*

prospect of a world government. The unification of Europe is the indispensable first step in achieving this goal.'

The vision of Coudenhove-Kalergi is apparently the handbook for the EU. Europe, for example, no longer has any borders and the population is in full swing by gradually supplementing and replacing the original Europeans with hundreds of thousands of migrants every year. It is therefore not surprising that loyal supporters of Coudenhove-Kalergi have since been rewarded with the 'European prize' of the 'Coudenhove-Kalergi Foundation'. Such as the German Chancellor Merkel in 2010 and the EU President, Juncker in 2014. In March 2008, the Jewish B'nai B'rith Masonic Lodge handed Angela Merkel the 'B'nai-B'rith Order' for her fight against antisemitism.

The Strasbourg resolution (1975) - Oil for Muslim immigration.

After the 1973 Arab-Israeli war and the threat of an oil boycott, the leaders of the EEC (the predecessor of the EU) made an agreement with Saudi Arabia and other oil states in June 1975 to actively promote the immigration of Muslims to Europe.

What is the influence of Coudenhove-Kalergi and the Frankfurter Schule on the world?

All institutions are infected and undermined: the government, the media and education. Even the legal system and the police are undermined. Cultural Marxism or neo-Marxism does not focus on revolutions, but on reforms. The target group is primarily the intellectuals. In these days we are witnessing the step-by-step imposition of communism and the deprivation of the freedoms of the population.

For companies, it means cheap labor that reduces the salaries of the people.

[Seehofer's new plan to force all EU countries to accept migrants](#)

The German Interior Minister Horst Seehofer has presented a plan to reform the European asylum system. Member States that refuse to accept unlimited numbers of migrants will be severely punished.

The migration by Muslims

The plan is the 'Hijrah', as described in the Quran. A peaceful migration with the aim of settling in a foreign country to take it over later.

The Hijrah was the migration in 622 AD. of the prophet Mohamed and his followers from Mecca, where he had a lot of resistance, to Medina (then Yathrib). Hijrah means migration.

The rich of the earth get a privilege, Jews get the dominance

Plutocracy

A plutocracy is a form of government in which the richest are in power and where they can determine the legislation for the population.

Some passages from the Talmud:

'When the Messiah comes, all (non-Jews) will be slaves to the Jews.' (Erubin 43b).

'Jews must always try to mislead Christians.' (Zohar 1160a).

'The Jews are called people, but non-Jews are not people. They are beasts' (Baba mezia, 114b)

Remarkable developments:

[In France, antizionism has become equal to antisemitism.](#)

[Trump signs executive order aimed at suppressing criticism of Israel](#)

President Donald Trump has not only arranged the relocation of the US embassy to Jerusalem, he has also signed an executive order (a decree of the president) to prohibit criticism of the Israeli government by university campuses in the US.

When the time of their Messiah comes, the promise out of the Talmud will be realized that the Jews are in control of the property of all the peoples of the world. The super-rich non-Jews will receive an important privilege in 'the great city', more about this in the next article.

Finally:

Don't fall into the trap of apostasy that the Christian faith is no longer that important:

NKJV (2 Thessalonians 2: 3) 3... for that Day will not come unless the falling away comes first, and the man of sin is revealed...

NKJV (1 Thessalonians 5: 4-5) 4 But you, brethren, are not in darkness, so that this Day should overtake you as a thief. 5 You are all sons of light and sons of the day. We are not of the night nor of darkness.

Not everyone wants to give up his sovereignty and his own culture and it is obvious that there will be a lot of opposition for a new world order. That is why Satan uses heavy means, THE false prophet or Antichrist who will perform powerful signs:

NKJV (Matthew 24: 23-25) 23 Then if anyone says to you, 'Look, here is the Christ!' or 'There!' do not believe it. 24 For false christ's and false prophets will rise and show great signs and wonders to deceive, if possible, even the elect. 25 See, I have told you beforehand.

In the following article; Who is the Antichrist, the miracle signs by the Antichrist, making an image, the money system is going down and a new temple in Jerusalem.

P.S. On the site ['Disciples of Jesus Christ'](#) there are more substantive Christian articles.
